Aligned Continuing Education

Simple, Relevant & Prosperous- Chiropractic at its Best

This program draws the most current research in science and philosophy with the objective of advancing doctors' impact on patient outcomes. Dr DePice achieves this through greater knowledge of chiropractic's safety, effectiveness and certainty in case management.

Research confirms why patients benefit from chiropractic care. Patients are eager to know about the Science and Philosophy of Chiropractic.

Dr. Depice will show you how to critically evaluate research in chiropractic and how to deliver the message of chiropractic to your patients.

"Postgraduate programs sponsored, co-sponsored or hosted by Sherman College of Chiropractic may not always reflect the view of the college or its employees."

Course Highlights

- Strokes Uncovered - Saving Lives! Learn what is important to understand about strokes. Mechanisms, causation and relevant research.
- Daily Patient Notes- The 7 components of documentation.
- Why "The Time is Now for Chiropractic."
- Wellness- A matter of less of this and more of that.
- Using Language to Bridge the Gap - How Chiropractic Terminology is the Advantage
- How to implement this into your office - The Easy Steps in Practice

About the Instructor

Dr. Dean Depice, a practicing chiropractor since 1987, has been serving the profession as well as his patients for his entire career. He founded TLC4Superteams with a conviction to provide a unique design of individualized practice coaching and accountability. TLC is redefining coaching for chiropractors. While maintaining a private practice, Dr DePice is an experienced international lecturer, practice coach, CE presenter and contributor to the entire chiropractic profession.
