CE Credits

The 2022 Fellowship Conference will feature dynamic and updated presentations on Chiropractic Principles in our modern times. Friday will include a dinner at 5:30 with guest speakers, a chance for fellowship, as well as Q & A. Saturday includes continental breakfast and lunch. Up to twelve hours of credit are available for full attendance. Credits have been applied for Pennsylvania as well as NJ, NY, DE, MD, and OH.

Registration is available through the attached registration form. Please mail or fax the completed form with check or credit card information to CFoP at the address listed on the form, we are not able to accept registrations by phone. Directions will be sent with your confirmation. Space is limited and on a first come, first served basis. We cannot guarantee the ability accommodate walk-in registrations.

This conference is co-sponsored with Sherman College of Chiropractic. Up to 12 hours of CE are available in select states. Postgraduate programs sponsored, co-sponsored, or hosted by Sherman College of Chiropractic may not always reflect the views of the college or its employees.

2022 Fellowship Conference

3:30 pm—5:30 pm

Chiropractic in 3D—A Review of the Craniocervical Junction and Upper Cervical Chiropractic

Presented by Dr. Ian Bulow

This in depth review of the anatomy and physiology of the craniocervical junction uses the latest research tool for upper cervical practitioners— the three dimensional CT scanner. Instability cases will also be defined as well as the most common and most effective adjusting procedures available. This session will include hands-on demonstrations and a time for Q & A.

Speakers

Dr. Ian Bulow is a graduate of Palmer College of Chiropractic and is in active clinical practice in Cranberry Township, Pennsylvania. Dr. Bulow holds the title Doctor of Chiropractic with an advanced Diplomate in Chiropractic Craniocervical Junction Procedures.

Dr. Dean DePice is a chiropractor with four decades of continual clinical patient care experience. He is a dedicated servant to the profession. He has founded the TLC community to bring chiropractors and CAs together training on providing outstanding lifetime care. As an international lecturer, practice coach, G10 Student curriculum developer and CE instructor, Dr. DePice has influence in all things chiropractic. Dr. DePice's passion will touch your hearts as he educates and involves you in a transformational learning experience.

"Chiropractic Success in the World of Covid-Don't Lose Your Philosophy and Reason for Being for Acceptance."

Tedd Koren, DC gives doctors what they need and inspires them with tips and unique ideas to connect with patients.

Dr. Koren is a graduate of the University of Miami and Sherman College of Chiropractic and co-founder of the Pennsylvania College of Chiropractic where he taught for two years.

After being disabled as a result of a home accident he saw 40-50 DCs and other healers with no lasting relief. He took some of the most unique technical insights and discovered a way to work on himself. After ten years of suffering he was better in five days! His wife's 12 years of migraines disappeared overnight. He called his discovery KST (Koren Specific Technique) and will be demonstrating it on stage. You will get valuable information you can use the next day.

Christie Kwon MS, DC, MPH completed her Doctor of Chiropractic degree within the Research Track at Life University, with Pi Tau Delta honors. She received her Bachelor of Science in Biomedical Engineering with a minor in Computer Science and Master of Science in Biotechnology degrees from Johns Hopkins University, and a Master of Public Health degree from Emory University, with Delta Omega

honors. She has also studied Health Policy at the Harvard School of Public Health and completed a Visiting Fellowship in Functional MRI at the Harvard Martinos Center for Biomedical Imaging.

Dr Kwon is a full-time faculty member and Research Chair at Life University. Additionally, she serves as a Board Member and Research Fellow with the Foundation for Vertebral Subluxation, the Alumni Council of Johns Hopkins University, the Clinical Advisory Panel for the Australian Spinal Research Foundation, and the Board of the Academy of Chiropractic Family Practice.

She is currently involved in subluxation-based chiropractic research focused on the epidemiology of vertebral subluxation. She has also engaged in chiropractic and public health research related to maternal and child health outcomes and is interested in studies on the utilization of fMRI in special populations under care. Her research background includes work with the Emory Child Health and Mortality Prevention Study (CHAMPS), the former National Cancer Institute's American Health Foundation, the Johns Hopkins University School of Medicine – Neurology Institute for Cell Engineering, the Johns Hopkins Hospital Harriet Lane Adolescent Clinic, and the Engineering Research Center for Computer Integrated Surgical Systems and Technology. She is also a former intern with the United Nations' Economic and Social Council Health Committee. She has presented her work to chiropractors, educators, and other healthcare professionals from a diverse array of disciplines all over the world.

Roberto Monaco has been a full-time speaker, coach and trainer since 2002, and has conducted more than 4500 presentations in the United States, Canada, Mexico, England, Brazil and Puerto Rico.

He worked for the Anthony Robbins Companies for 6 years and in 2004, 2005, 2006 and in 2007 he was the top producer and revenue generator in the country. In 2005, 2006, 2007 and 2008 Roberto also coached and trained all the other Peak Performance Strategists at The Anthony Robbins Companies.

He has advised and consulted with Fortune 500 companies, executives, managers and sales professionals in the areas of peak performance, leadership, psychology of achievement, presentation skills and sales.

He has served chiropractors for the last 7 years, showing them how to convert more patient's at Dr Report's, ROF, "dinner with doc" talks, lunch and learns and health lectures. He has quickly become the "go-to" speaking coach for the top Chiropractic Advocates in the industry. He is the founder of The Chiro Speaking Club, an online community to teach Doctors to attract and retain new patients through public speaking and group communication. He has also developed the premiere Public Speaking Seminar for Chiropractors called Influencing From the Front for Chiropractors.

Roberto Monaco is originally from Porto Alegre, Brazil, and he conducts workshops and training's in two languages: English and Portuguese.
